with Sally

Think of all the dreadful things that could happen to you if you let them. Horrible things.

Like cakes that fall or a sun-burned back or finding out that your husband has been lurching with a blonde. Life is filled with peril and uncertainty.

It was an insurance salesman who brought this serious situation home to us. Not that he mentioned sunburn or blondes, but we think that's what he must have had in mind. Anyway, he said that this coming Sunday is National Health and Accident Insurance Day and that we should do something about it.

After we had closed the door behind him (some time later—we had to bribe him with a piece of banana cream cake from Geneva Bakery)—we sat down and began to think things over.

It made us feel pretty glum. What can a housewife do against a blonde siren? Horrible visions rose in our mind—John sitting across the table from a glamorous creature in a red satin dress—John drifting across a dance floor with her in his arms—John whispering soft nothings in the moonlight.

Hmmm—well, if that's the way John wanted to carry on, see if we cared! We swallowed the lump in our throat and went into the kitchen. We made ourselves an immense sandwich from provisions stacked in our new refrigerator from Byrne's Radio Store.

We ate all of the sandwich. It was a pretty big one, too, fairly bursting with lettuce and cream cheese and ripe red tomatoes from Westlake Market.

Then we put on our best hat and went down to Stan's Standard Station and put ten gallons of gas in the car. We invited our Cousin Hattie to go to the Perpetual Help whist with us and we accepted an invitation from Mrs. Sanosimo to see "Pinocchio" with her at the Daly City Theatre.

But all the time we saw blonde spots before our eyes. Even a basket of luscious ripe peaches from

(Continued on Page 3)

At The Fair

Happy to be back in the city where he did his first frescos in the United States exactly ten years ago, Diego Rivera, the great Mexican muralist, has begun work on his big mural at the Palace of Fine Arts of the Golden Gate International Exposition.

Rivera was enthusiastic about his plans as he talked about them in his daylight studio where he is engaged in his preliminary work. The studio workshop has been specially constructed for Rivera behind the huge scaffold erected in the central section of the building, where he will paint his great fresco as part of the public art demonstration sponsored by the Fine Arts Palace.

The mural will be Rivera's contribution to a closer friendship between his country and ours. The theme is a powerful plea for the Pan-American idea. "The need of a union between the American countries of the North and the South," Rivera said, "is a question of life and death. My mural will picture the fusion between the great past of the Latin American lands, as it is deeply rooted in the soil, and the high mechan-

(Continued on Page 2)

G. O. P. Chieftains in National Session

Busy with political affairs is Representative Joseph W. Martin Jr. of Massachusetts, chairman of the Republican national convention which opens Monday in Philadelphia's Convention hall. Upper left inset shows Governor Harold E. Stassen, convention keynote speaker.

Plan Large Whist For Tonight

One of the largest whists planned here this month will begin at 8:30 p. m., tonight, at Masonic hall.

Funds from the affair will be used for the benefit of Our Lady of Perpetual Help church.

There will be many attractive prizes, according to the committee in charge. The public is cordially invited to attend.

Rough Customer

A. C. Cooper donated Cricket, a six-year-old rhesus, to the Fort Worth, Texas, zoo. During his first 10 minutes in the "monkey island" colony at the zoo Cricket slapped down seven other monkeys, whipped two raccoons and grabbed three fish from the most surrounding the island.

Weatherbeaten Woodwork
A method by which an old weatherbeaten effect can be achieved on new knotty pine woodwork has been devised by paint authorities. Paint experts advise the sponging of the surface with a fairly strong solution of ammonia or soda. If a dark finish is desired, make a stain of raw umber thinned with turpentine and add enough varnish to bind it. Prepared varnish stains are available for this purpose if preferred. A thin coat of reduced shellac or dull varnish may then be applied, followed by a coating of wax.

Men Surpass Women?
The male of the human species is superior in intelligence to the female, according to Professor William Reuter, Westminster college psychologist. Reuter asserts, on the basis of tests, that it has been proved that woman rarely becomes successful through her own ability. Men have always beaten women in every field, even in their own domain of cooking and dressmaking, according to Reuter. He said the difference in innate intelligence between the sexes may be due to the fact that the masculine brain is larger.

Hunting for Hero
Boy Scout E. L. Montgomery of Parsons, Kan., saved a man from drowning in the Elk river last July 4, but he forgot to get the fellow's name. It took Scoutmaster Dan Devin weeks to track him down so he could get him to sign a petition recommending a medal for Montgomery. He said he was glad to know who it was that saved him because the day it happened he was too excited to inquire.

Carnegie Libraries
Andrew Carnegie established 2,811 libraries throughout the world. In this country he gave 1,946 libraries.

At The Fair

(Continued from Page 1)
ical developments of the United States today.

The design of Rivera's fresco will balance the old pyramids of Mexico against streamlined skyscraper cities of the United States, including a vista of San Francisco. Likewise, the legendary serpent of the Indian mythology will be contrasted with a sinuous belt conveyor. In the center will be a dominant figure, half machine, half Aztec sculpture. It will symbolize the great mechanical and technological achievements of twentieth century America, together with the mythological Goddess of Life who represents the vigor and fertility of the ancient Mexican civilization.

After its completion, the mural, which is 22 feet high and forty feet wide, will find its permanent place in the library of the new Junior College of San Francisco. The mural will be the center section of a wall decoration of 250 feet which Rivera hopes to finish after he has painted the central part at the exposition.

First Hospital Chair
According to the minutes of the Pennsylvania hospital for September 28, 1788, Thomas Affick, by many considered the superior of Philadelphia's famous cabinetmaker William Savery, presented the hospital with a curious mahogany chair for the easy removal of sick patients. The chair was valued at 12 pounds.

Nursery-Room Hint
Pictures for children's rooms can be made washable by covering them with white shellac.

It Won't Get Wet

Something new in the way of beach glamour is this bathing suit of thin white silk treated with a synthetic coating which resists salt corrosion to make it waterproof and spotproof. Underneath are shorts and bra lining of scarlet jersey. The treated silk absorbs no water so that the suit emerges from a dip in the ocean as fresh and crisp as when it went in.

Forty-five Pounds of Pennies
Forty-five pounds of pennies were collected by members of the Swedish Evangelical Mission church at Atchison, Kan., this year. They were the savings from small banks of members. The money will go to missions in China.

Discovery of Tangier
In June, 1608, during his exploration of the Chesapeake bay and the Eastern shore, Capt. John Smith discovered Tangier island and named it after the seaport in Morocco.

THREE

Scouting the Shops

(Continued from Page 1)
the Daly City Cut Rate Market couldn't make us forget it.

So we went home and made a list of all the calamities that might happen and how we could avoid them.

Our list read something like this:

1. Blisters on our heels: buy comfortable summer shoes at once from Bosco's.

2. Slicing off a finger grating cheese: get some already grated cheese now on special at Pesce Market. Also pick up some self-rising cake flour.

3. Car breakdown on lonely road near haunted house in dead of night: Get new Willys car from Mather Brothers — good for 100,000 miles.

4. Rickets, scurvy, falling teeth: fresh fruits and vegetables from Colma Pioneer Market, packed with vitamins.

5. Leaving the iron on and burning down the house: we better send our clothes to New Process Laundry.

6. Dying from thirst in the desert: Lucca Ravioli company has a grand special on pineapple juice this week.

We chewed our pencil and thought of all the other dire things that might happen.

1. Finding a mouse in the jelly: with Parowax sure-seal from Farmer's Market the mice haven't a chance.

2. Spilling soup on our best dress: Beeson Cleaners can remedy this.

3. Not hearing the alarm in the morning: fresh eggs and bacon from Robertson's will make breakfast in a jiffy.

4. Seeing wrinkles in the looking glass: apply creams and lotions from Edwards Drug Store.

But what about that blond siren, our subconscious mind whispered. Her complexion is probably smooth as silk. John is no doubt having dinner with her right now.

In the grand old summer time eat ONE HOT FOOD WITH EVERY MEAL

Dorothy Greig

Purée Mongole Soup is nourishing for warm days

EVEN though the thermometer plays mean tricks by climbing high and higher, we still need hot food—and at every meal.

Cold cuts, cold salads, frozen desserts, chilled drinks are all palate tickling. Somewhere along the line, however it's wise to include a hot dish. Hot food helps the digestion to behave politely. And anyway, a contrast, a balance, of hot with cold gives any meal more zest.

For example, suppose fruit juice or jellied soup comes first. Then make the next course a hot one, maybe meat pie and meat loaf. Or if you serve cold cuts, begin the meal with a light hot soup. At noontime, hot soup can be the main dish, followed by crisp salad and cold dessert.

Soup is one hot dish a woman can prepare without getting all heated up herself. Just open a can, add water or milk as the case may be, and heat. Soup is light, leaves no heavy after feeling. It refreshes and revives, too, and provides quick energy. Here are several that are especially inviting with summer meals:

Purée Mongole

1 can condensed pea soup
1 can condensed tomato soup
1 1/2 cup fresh milk or light cream
Empty pea soup into saucepan and stir until smooth. Add the tomato soup, a little at a time, stirring constantly. Add cold milk

or cream to mixture. Then heat, stirring constantly. Do not let boil. Serves 4-6.

Cream of Celery and Chicken Soup

1 can condensed celery soup
1 can condensed chicken soup
1 can milk, using soup can for measure
1 can water, using soup can for measure

Stir the chicken soup into the celery soup. Then add 1 can of milk and 1 can of water. Heat to boiling and serve. Serves 4-7.

Another winner is this meat roll. Not the least of its virtues is that it looks so nice sliced down:

Stuffed Meat Roll

1 1/2 pounds ground beef
1/2 pound ground fresh pork

4 tablespoons onion (cooked in 1 tablespoon butter)
1 1/2 teaspoon salt
1/2 teaspoon pepper
1/2 cup soft bread crumbs
1 egg, beaten

Combine all of the ingredients and mix thoroughly. Put on waxed paper and pat out in a sheet 14 inches long by 10 inches wide.

Potato and Pea Stuffing:

2 cups mashed potatoes
1 can condensed pea soup
1 teaspoon salt
1/2 teaspoon pepper
1 egg, beaten

Combine all ingredients and mix well. Place on the meat and then roll the meat mixture around the stuffing. Bake in a moderate (350°) oven for one hour to an hour and fifteen minutes. Serves 2.

Meat roll with potato-pea stuffing perks up hot weather appetites

So slowly and sadly we wrote down the last word on our list:

Siren.

We sat there gazing at it for a

long time.

(to be continued)

Cleveland Relief Measure

Cleveland relief authorities have ordered the impounding of license plates of relief clients and members of their families who own automobiles. "If these people want to own and operate cars," City Relief Commissioner Frank G. Jones said, "they will get themselves cut off relief rolls."

Napoleon's Burial Place

Napoleon III is buried at Farnborough, England. Previously, he was buried in St. Mary's mortuary chapel, Chislehurst, England, where he died, but in 1887 the Empress Eugenie caused to be built St. Michael's Roman Catholic church, in the crypt of which were buried the emperor, the prince imperial and the empress.

Aerial Sleeve Target

A new type of aerial sleeve target for anti-aircraft firing practice is being developed by army officers. Rubber compartments containing titanium tetrachloride enable gunners to record direct hits immediately. When struck, the new target emits a dense column of smoke.

New Copper Discoveries

New discoveries of copper ore 150 miles southeast of Yellowknife, Alberta, flourishing subarctic mining camp, have been reported. They are expected to give added importance to the northern mineral fields, particularly in view of the war demand for basic minerals.

Television 'Make-Up'

Actors' make-up has changed constantly since the inception of television. About 1930 the actors painted their faces white and their lips black, but the present make-up is very similar to that used in the movies.

New Age 'Calculator'

According to Collier's, anyone whose calendar age is between 10 and 45 years may now have his physiological age determined quite accurately through a mathematical formula based on the rate of the healing of a superficial wound.

Paint Helps Sales

Seeking to improve distribution of its open bed springs a firm did them in silver aluminum paint. Sales jumped 25 per cent.

Bow and Arrow Hunter
At 30 yards with bow and arrow—too close to be comfortable—Charles ("Tex") Stone of Dallas has bagged one of the largest mountain lions ever killed in Texas. Stone uses the risky, ancient weapon because an arrow, he says, does less damage to museum specimens and that is what he stalks. Tanned, slender, partly bald and 39 years old, Stone estimates he has killed 400 wild animals in Africa, South America, India, Australia, Mexico and the United States since 1920. All were shot at a range of less than 35 yards. He bagged a male mountain lion that weighed 220 pounds in the Fort Davis mountains.

'Youthful' House Paint
Home owners faced with the problem of making old houses look younger may try coloring them with "youthful" paints. This can be done with almost any type of construction. Side walls of wood, brick, or stucco may be painted with paints specially prepared for each surface. Roofs may be covered with one of several different types of factory-colored shingles, and color accents may be provided in window blinds and front doors. A popular new exterior color combination consists of light salmon-colored walls, emerald-green roof, and a flame-colored front door.

Light Ray Messages
Messages by light rays were described as an almost interception-proof means of communication during warfare by Dr. Phillips Thomas, research engineer of an Indianapolis electric company. The method would be especially effective in communication between the ground and planes in the air, he pointed out, asserting a message could be intercepted only by cutting into the beam directed at the plane. Other electrical developments demonstrated were a "sterilamp" which he explained would destroy all germs in a given confined area, such as a hospital operating room, and a "black light" which produces various colors.

Furniture Fancies

By BETTY BARCLAY

When a chair one hundred and eighty years old sells for \$33,000—that's news. When this is a mahogany chair—that's proof of the durability of this attractive wood. If more proof is needed, you might visit the Cathedral of St. Domingo. This Cathedral, completed in 1550, has much carved mahogany woodwork, some of it considered the finest in the world, still in splendid condition after nearly four centuries in the tropics. A rough hewn mahogany cross preserved in this Cathedral, dates back to 1514—four hundred and twenty-six years ago. Surely this is proof that your choice of mahogany furniture for your home or office will assure you of something that will outlive you and yours for many generations.

The golden age of mahogany was the 18th century and the first quarter of the 19th. During this period furniture became modern in size and proportion. Chippendale, Brothers Adam, Hepplewhite, Shearer, Sheraton, Duncan Phyfe and others developed styles of sheer beauty that have never been surpassed. The Georgian eventually gave way to the Empire or Classic styles, which merged into the Victorian with mahogany always the

REPRODUCTION OF
the famous Van Pelt Chippendale Mahogany Highboy. This piece brought \$44,000 at the Reifnyder Sale in 1929—an all-time record. At the same sale a Chippendale Mahogany Wing Chair made by Benjamin Randolph of Philadelphia, about 1760, brought \$23,000—the highest price ever paid for a chair.

first choice for good furniture. This wood has been supreme, without a serious rival for over two centuries down to the present time.

Thomas Jefferson wrote the Declaration of Independence on a mahogany desk. Independence Hall preserves the mahogany of our early Congress. The Supreme Court has never handed down a decision except in a mahogany furnished court room. George Washington, Patrick Henry, Abraham Lincoln, General Grant, Robert E. Lee and Longfellow are but a few of our great whose homes were made beautiful with mahogany furniture.

If solid genuine mahogany could be obtained only by those able to purchase antiques, few of us would enjoy it. But new sources of supply have been opened up since tractors blossomed in the wilderness, and solid mahogany furniture is to be found in the better furniture stores of today—in the medium price range. Solid mahogany furniture, as always, is made of plain, straight-grained lumber. When you seek the highly figured mahogany, such as crotch, swirl or mottle, you will choose furniture with the larger surfaces of plywood panels.

Yacht As 'Oceanographer'

The S. S. Oceanographer is now charting the Nantucket shoals, called the "Graveyard of the Atlantic." The Oceanographer was formerly the private yacht of Morgan, the magnificent. The master suite aboard her, with its extra-sized beds and its mahogany paneling, is used by Commander Frank S. Borden, the Oceanographer's skipper.

Weight of Comma

Scales balanced to weigh the ink in a comma are finding wide use in modern laboratories. A grain of sugar is considered massive on the microchemical balance. It weighs 68-1,000,000ths of an ounce.

Aviation Employment Up

As the result of sharp increases in both foreign and domestic airplane orders, California's aviation industry is employing 80 per cent more men than a year ago.

Doubles in Mirrors

The balcony of the Forum restaurant, which opened recently in Chicago, is designed as half a room, but diners feel that they are in a whole room twice as large. The room is "completed" by reflection from a huge plate glass mirror which covers one wall. The lighting fixture is a half-circle of plate glass, also "completed" by the mirror.

Dr. Lantheaume Gets Big Fish

Dr. William J. Lantheaume hooked a 34-pound salmon near Rocky Point, Marin county, Thursday of last week.

Lantheaume and four companions from the Mission Sportmen club caught 35 salmon in all, ranging in weight from 16 to 34 pounds.

Even Christmas Simpler

Christmas tree decorations in Canadian homes will be simpler this year because of the war. Unless merchants can refill demands from stocks, ornaments will not be available. Most of them are made in Germany.

U. S. Foreign Trade

America's exports of finished goods have increased fourfold since 1883, while exports of crude materials have been at 71 per cent, a compilation by the New York Journal of Commerce shows. At the same time imports of finished goods dropped 64 per cent, and imports of crude materials increased 4½ times.

Mahogany's Scientific Name

The scientific name for mahogany is "Swietenia." This name was given it by Nicholas Jaquin of Leyden, who was sent to the West Indies by Francis I, of Austria, to study the flora of that region. The name honors Gerard van Swieten, botanist and physician, also of Leyden.

America's Most Forgotten Man-- The Carpet Beater

Land takes! how he could pound the stuff's out of a Wilton. And an Oriental—why he could reduce it to shreds in a forenoon's work.

But times have changed, fortunately—today rugs are handled with expert care. Our Mirza rug cleaning (exclusive west of Chicago) revitalizes and beautifies your floor coverings at REASONABLE prices. It de-moths as it cleans, too.

Let us serve you—our workmanship will please you.

HOW TO MAKE ICED COFFEE

FRESH HOT COFFEE is the first requisite for good iced coffee. Make it double-strength (two heaping tablespoons of coffee to each measuring cup of water) to allow for dilution by ice.

POUR FRESH COFFEE immediately into tall glasses filled with ice. To preserve full coffee flavor, iced coffee should be served immediately after hot fresh coffee is poured over the ice.

A FROSTY GLASS of delicious iced coffee is the result. Serve it plain; with ice cream; or top it with whipped cream into which has been folded oil of cloves, powdered ginger or almond flavoring.

Revolutionary Borrowing
Over \$500,000 in cash was borrowed by the United States during the last two years of the Revolutionary war, according to a study of "Business Enterprise in the American Revolutionary Era", issued by the Columbia University Press.

Ivy's Symbol
The ivy has always been a symbol of the clinging love of woman. The altar of Hymen, the Greek god of marriage, whose blessing was invoked at every wedding, was kept green with ivy. In the legend of Tristan and Isolde, two ivy vines, entwining, are a symbol of the undying union of the lovers.

How About an Island Dessert for Summer Menus?

By BETTY BARCLAY

For warm weather enjoyment fill meringue shells with raspberry ice and top with well-chilled and thoroughly drained canned pineapple gems from sunny Hawaii. Serve at once.

FOR easily prepared desserts with refreshing flavor keep on hand in the refrigerator this summer a supply of tangy canned pineapple gems from Hawaii. They are delicious spoon-also chunks of pineapple and are good served well-chilled and right from the can, of course, but they also lend palate appeal to other fruit combinations.

When the mercury rises too close to the top of the thermometer for comfort in the kitchen try any of these tantalizing dessert combinations. Each one takes but a few minutes to prepare.

Top well-chilled pineapple gems served in sherbet cups with a firm

scoop of mint, lemon or strawberry sherbet. Sliced strawberries, pineapple gems and a little strap drained from the can topped with chopped mint leaves is another attractive combination. Red raspberries may be substituted for the strawberries.

For company dessert on a very warm evening serve Island Dessert. Fill meringue shells with raspberry sherbet. Top with well-chilled and thoroughly drained pineapple gems. Serve at once on individual plates garnished with grape or geranium leaves. Six meringue shells, one quart of sherbet and 1-14 ounce can Hawaiian pineapple gems will serve six.

Towers of Silence

The tower of silence is the name applied to structures built by the Parsees for the disposal of their dead. They are towers about 40 feet high called dakhmas. Below the top of the wall is built a floor of iron grating and upon this the bodies are placed until by exposure to the elements and birds of prey the flesh is entirely removed from the bones and they fall into a pit below.

Ozone Thwarted

The destructive action of invisible ozone discharges which consume ordinary electrical transmission wires in three seconds has been resisted for three years by wires insulated with koroseal, new synthetic elastic, in tests conducted by B. F. Goodrich company scientists at Akron, Ohio, laboratories.

Francis Bacon's Hobby

Francis Bacon, the essayist, spent his spare time devising new styles in men's clothes. He made 1,300 drawings of freakish raiment and had tailors make some of them up. When no friends of his would wear any of the wild and giddy costumes, he hired men to put them on and promenade the London streets.

Mountain-Climbers Rest

Years ago Dr. Valentine T. McGillicuddy, Berkeley, Calif., was the first man to climb Harney peak in South Dakota's Black Hills. Now deceased, his ashes will rest on the summit at his own request.

New Telephones for India

New one-piece telephones are being manufactured in mass production in India to replace the old two-piece office models.

Sunken Treasure
Still in the wreck of the Fannie & Jennie, Confederate blockade runner lying off the beach at Wrightsville, N. C., is a gold and jeweled sword sent to General Robert E. Lee by British sympathizers.

An About Face
Washington county, Alabama, voted for state-controlled liquor in a referendum two years ago by a count of 696 to 247. Now it has voted to do away with liquor by a vote of 744 to 201.

Bromfield Story "It All Came True" At Daly City

"It All Came True," Warner Brothers film version of the famous Louis Bromfield story, is at the Daly City theatre with Ann Sheridan in the starring role, and Jeffrey Lynn, Humphrey Bogart and Zasu Pitts featured with her.

Louis Bromfield, author of such fine novels as, "The Rain Came," and others, now deals with the hopes and disappointments of a group of people living in a New York boarding house. With the intensity of plot and characterization typical of all Bromfield's stories, he shows how these people, content to live in the reveries of their past, are suddenly thrown into a turmoil, when a gangster uses the boarding house as a hideout. The mood and pace change smoothly from the fond old "Gay Nineties" to the disconcerting realities of the present. The songs are a good example of that. Ann Sheridan sings such old favorites as "Mr. Dooley," "Oh, You Beautiful Doll," and "Pretty Baby" with the same distinctive quality that she sings the brand new rhumba, "Gauche Serenade" and the sweet romantic ballad, "Angel in Disguise."

Companion feature is "The Bluebird," starring Shirley Temple, in beautiful technicolor.

Apple Pie for Rubino

Mrs. Oliver Johnson of Helena, Mont., recalled that what Violinist Rubino particularly liked when she was a vocalist with his orchestra was apple pie. So when Mrs. Johnson greeted Rubino in Helena recently she carried with her a thick, juicy apple pie. "Wonderful, wonderful," said the violinist.

Typewriter Ribbons

Typewriter ribbons are usually made of the best quality nainsook, closely woven of fine, even thread spun from the best long-fiber Sea Island cotton.

INTENSE DRAMA AT BOARDING HOUSE

On the wrong side of the door is Humphrey Bogart. Jeffrey Lynn is the lucky guy at Ann Sheridan's side in "It All Came True," now playing at the Daly City theatre.

Nickel in Television

Television promises a new outlet for nickel. Vital as the device that translates the electrical impulses into visual patterns, the cathode-ray tube may require up to eight times as much nickel in its construction as does the conventional wireless tube. Associated with it in the receiving set are 18 to 36 radio tubes, as compared with 4 to 16 employed in the metal and its alloys are also used in the transmitting equipment.

Giant Electric Shovel

A giant electric shovel, which will be able to dig through earth as deep as a six-story building, wide as a four-lane highway and deposit it 226 feet away, is under construction at Marion, Ohio. It will be used in strip mining work in Indiana coal fields.

Largest Quicksand Area

Diamond shoals, off Cape Hatteras, N. C., are said to comprise the largest area of quicksand in the world.

Seventeenth Century Employers

Believing that it was necessary to threaten employees with hunger in order to get more work from them, Dutch and English economic literature in the Seventeenth century stressed the necessity of lowering wages to the minimal level of subsistence, says a study of "The Evolution of the Classical Wage Theory," issued by the Columbia University Press.

Fish Poisoning

One of the symptoms of fish poisoning in a human being is the reversed sensory impressions received when contacting solid objects, says Collier's. A cool metal railing feels warm to the hand, while ice cream feels so hot to the mouth that the eater instinctively blows upon it.

Noncompetitive Imports

More than half the value of U. S. imports of agricultural products is in noncompetitive items like coffee, tea, cocoa, raw silk, rubber, bananas, spices.

Canadian Sport Fishing

Remarkable progress in the development and extension of sport fishing areas in the national parks of Canada is reported by the department of mines and resources, Ottawa, which administers Canada's system of national parks. As a result of biological surveys and subsequent stocking operations in the various lakes and streams, particularly waters once barren of fish, visiting anglers may now enjoy good fishing in many waters where previously there was little or no fishing available. One of the outstanding achievements has been the successful introduction of the speckled trout from its native haunts in eastern Canada into many of the clear, cold waters of the national parks in the Rockies.

Buzzard Migration

The annual southward migration of buzzards was so great through San Geronimo pass in California this year that the birds blacked out the sky. More than 4,000 of the birds were estimated to have made the mass flight south through the pass.

Nazi Nine Commandments

The new commandments which have been substituted by the Nazi government in place of the Ten Commandments are as follows: 1. Honor the world foundation. 2. Honor thy ancestors and grandchildren. 3. Honor the great of thy people. 4. Honor thy parents. 5. Keep yourself clean. 6. Be loyal to your people. 7. Do not steal. 8. Be truthful. 9. Help the noble.

Poland Still on Map

Although Austria and Czechoslovakia have been rubbed off European maps, United States commercial mapmakers are standing firm on Polish territory. The familiar pink area used to designate the former Republic of Poland will remain unchanged until the war in Europe is over, according to William Tauch, representative of a large map-making concern.

Origin of 'Adirondacks'

The Adirondacks, mountainous district of northern New York, takes its name from the Mohawk word "ratirontaka," meaning "they eat trees."

"ENJOY OUR SUPERIOR MEATS"

AN IDEA FOR TODAY CUSHION LAMB SHOULDER
WITH PINEAPPLE SAUCE

Cushion Lamb Shoulder With Pineapple Sauce

Have a square-cut lamb shoulder boned and sewed on two sides, leaving one side open for inserting the stuffing. Fill pocket with savory stuffing and sew or skewer the edges together. Place fat side up on a rack in an open roasting pan. Season with salt and pepper. Put it uncovered into a slow oven (300° F.) and roast until done. Allow thirty to thirty-five minutes per pound for cooking.

As the roast is cooking baste it with pineapple juice for added flavor. Shortly before it is done pour

1 cup of crushed pineapple sauce mixed with ½ cup sugar over the top of the roast and let brown slightly.

Savory Stuffing

2 cups fine dry bread ¼ cup chopped celery
crumbs ½ cup fresh mint
¼ cup fresh mint leaves 5 tablespoons butter
Salt and pepper

Cook celery and mint leaves in butter for two minutes. Mix with dry bread crumbs and stuff into pocket of lamb shoulder.
